### Bainbridge Manufacturing Phone: 1-800-255-4702 Fax: 1-509-745-9666

1  $\frac{1}{4}$ " Spacer for Frameless, Face Frame Overlay and Lipped: Part Number 3609 (Select Color)  
2" Spacer for Face Frame Inset: Part Number 3636 (Select Color)

Note: In all applications, a helper screw (#6 x 1  $\frac{3}{4}$ " ) must be added, at least to the rear most spacer block, to counter act the fulcrum effect caused when the tray is fully extended. This condition will be corrected when the new TenonCam spacer blocks, that are being produced by Bainbridge Manufacturing, become available.
